

Sunday Morning Adult Bible Classes

Beginning April 15

9:00-10:10

The Message of His Miracles

Young Married – Gary Hoyack, Scott Royse... 112-113

Jesus did some amazing and spectacular things while he was here on this earth. There are those who view the astonishing events of the gospels as either wishful inventions or gross exaggerations. Yet the miracles of Jesus are not only real and true, they reveal something profoundly important about him. They are signs pointing to who he is, and reveal important truths about his ministry and values. Essentially, the miracles of the gospels help us see Jesus.

Moth-Proofing Your Portfolio: Learning to Invest God's Way

Tad Dowell... Annex 1

“Worldly people are often shrewder about what they believe matters than are the sons of light about those things that really do...” (see Lk. 16:8). Students in this class will explore valuation strategies designed to help them be shrewder in their relationships, allowing them to discover and appreciate the value in people that the world often overlooks. In the process, they will discover those things which are of greater worth.

Jesus Reigns Supreme: A Study of Colossians

Servants – Maynard Leese... Annex 3

We live in a pluralistic culture that facilitates and supports the dissemination of a variety of beliefs and values. In such a setting, holding to the supremacy of one system over another is considered narrow-minded and inappropriate. When a variety of messages are being offered there exists the tendency to dilute or blend the distinct content of truth. Paul's letter to Colossae reminds us that, in every place and time, Jesus continues to reign supreme.

Knowing God: Understanding His Attributes

David Mullins, Bruce Utley... Annex 4

Our understanding of God is critically important to our spiritual well-being. Distorted images can cloud our perception, block our trust, and inhibit the development of a close, healthy relationship. Our values, our priorities, our very way of thinking are fundamentally reduced to what we believed about God. Knowing Him is the most significant endeavor in which human beings can be involved.

Burning Bush Moments

Single Adult – Jim McDaniel, Tom Zimmer... Annex 2

Real change in a person's life is relatively rare, and when the opportunity for change presents itself, we usually resist it and fight it at every turn. When change occurs it is almost always associated with a stress-producing event that disrupts our world or challenges our assumptions. In this class, we will examine those Biblical instances in which people made dramatic turnings in their life which resulted in more closely following the path of God.

Sunday Morning Adult Bible Classes

Beginning April 15

10:30-11:40

Christ the Controversialist

Dexter Freeman, Ellis Henton... 112-113

Jesus lived a stormy life. Wherever he went, he seemed to provoke disagreement and controversy. His teachings challenged cherished traditions, called into question common assumptions, and angered the entrenched religious establishment. Yet Jesus never backed down; he always met his opponents head on. This class will examine the controversies Jesus shared with the Pharisees and Sadducees and show how they remain relevant even today.

Growing Personally and Spiritually - GPS

Women's Class – Donna Hoyack... Annex 2

Abundant Life, Abundant Joy, Unfathomable Peace! It sounds like heaven, but in reality it is Kingdom living, available to every Christian, right here in the present. If this is God's design for all of his children, then why are so many of us not living this way? GPS classes are designed to help women discover how God is working in our hearts, minds and souls to guide our response to Him, our families, and life in general. Come join us as we journey together and actively pursue where God wants to take us!

Two Confused Prophets: Jonah and Habakkuk

Dave Fulbright, Bruce Utley... Annex 4

Paul's letters to the church in Thessalonica were two of his earliest. He writes to a church discouraged by difficulty and uncertainty. Christians were being persecuted, and it was a struggle to remain faithful. There were many questions about the second coming of Jesus, and some had even quit working expecting an immediate return. The similarities to our present time are obvious. We too can receive encouragement through a study of these important books.
